

Press Release

Gulf Navigation Holding PJSC Invites Investors to Attend Virtual Investor Presentation on Brooge Acquisition Milestone and Future Growth Roadmap.

Dubai, United Arab Emirates – 4 December 2025

Gulf Navigation Holding PJSC (“Gulf Navigation”), the Dubai Financial Market–listed maritime and energy logistics company, is pleased to invite shareholders, bondholders, analysts, and the wider investment community to a virtual Investor Presentation to be held on:

Friday, 5 December 2025 at 12:00 PM GMT

During this session, the Company’s senior management will present an overview of the recently completed acquisition of Brooge Energy assets, highlight the strategic value and financial impact of the transaction, and outline the Group’s roadmap for future growth across its maritime, logistics, and energy infrastructure businesses.

The presentation will include updates on:

- Integration progress and immediate value creation
- Operational and financial synergies
- Strategic initiatives and expansion plans
- Capital structure, financing developments, and future investment priorities

Registration

Investors may register for the event by visiting following the instructions provided through the link:

Participants are encouraged to submit their questions in advance through the registration page. Management will address key questions during the live Q&A session.

Gulf Navigation remains committed to transparency and proactive engagement with its investor community and looks forward to hosting all stakeholders at this important event.

About Gulf Navigation Holding PJSC

Gulf Navigation Holding PJSC is a fully integrated and diversified shipping and maritime services company. It is the only specialized maritime and shipping company listed on the Dubai Financial Market since February 2007 under the ticker symbol “GULFNAV.” Headquartered in Dubai, the company has branches in Fujairah and Khorfakkan, and an overseas office in Saudi. The company operates a modern fleet comprising chemical tankers, livestock carriers, well

stimulation vessels, and offshore support vessels, in addition to offering ship repair and marine services. Gulf Navigation is ISO 9001:2015 certified and accredited by Bureau Veritas, adhering to the International Safety Management (ISM) Code and environmental control standards. The company continuously invests in upgrading its operations to deliver high-quality, sustainable maritime services to both local and international markets.
